**OUR ISSUES:**

- Dock Management Plan: it's about equal rights, the use of public lands, and government accountability, not just for Pender but all BC residents.
- Official Community Plan: it must be resolved with community input.
- Incorporation: Are we ready to be a municipality? I will initiate a feasibility study if the community wants it.
- South coast water supply: we need to protect our water.
- Rising taxes with little return in services.
- Transportation: we need permanent, reliable service.
- Housing: we need more long-term housing for young families, and seniors who want to remain living near family and friends.
- Illegal dumping/transfer station: there is a connection.
- BC Ferries service: we deserve convenient and reliable service.
- Economic development: young people need sustainable jobs, businesses need year-round viability, and we need to find new ways to sustain ourselves and grow.
